

# WHAT OUR STUDENTS SAY

NATSAI

“One of the reasons I love going to WHSG is because of all the friends that I have made who support me, and the teachers who motivate me and help us improve on our wellbeing, as well as our studies. Though I may feel a little bit upset about exam stress or even friendship problems I know I can talk openly with my teachers because they will offer me guidance. I also love the lessons in school, particularly English, Art and Drama. I like them because all of our teachers go through what we have learned so we can comprehend it and we are always encouraged to try our best, even if we get it wrong. Also, I am able to use many new learning resources and techniques which help me to revise. Just knowing that my peers and the staff are there to help me when I need it has helped me to become a very confident, outspoken person”

SIANNA

“I very much enjoy life at Wallington High School for Girls because the teachers and staff are all willing to help me whenever I am stuck or need help. From my form tutor to my subject teachers, they are always so supportive and they always want the best for us”

# WALLINGTON HIGH SCHOOL FOR GIRLS

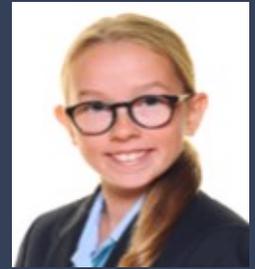

ROWEN

“I love Wallington Girls because it is an amazing community. I always feel supported with my decisions. Whenever I have a problem or worry I feel comfortable discussing it with a teacher. This is because all teachers are so friendly and welcoming, with fun and informative lessons every day”

RESHINI

“Wallington Girls has a wide range of opportunities to offer, from music concerts to cricket matches. We have an outstanding sports department who constantly provide the best support, helping every student to hone their skills in any sport. But the sports department isn’t the only amazing department at Wallington; the Music department is also completely dedicated, hosting numerous concerts for all years”

HELENA

“One of the things that I love about WHSG is the various opportunities and extra-curricular clubs. Throughout the three terms of a school year, there is a variety of chances to try out new sports and activities that you might love but most importantly to have fun! If you are worried about how to use your time wisely (doing homework etc.), you are lucky enough to have the first 4 weeks of Year 7 homework free! This gives you a massive opportunity to try out different clubs – remember if you don’t enjoy your experience at a club, you don’t have to go every week and you can decide to give it up if you would like. Of course there are also many sports’ teams I including netball, athletics, cross-country running, football, cricket and rounders where you can play competitively against other secondary schools in this borough or county”

## HEIRS OF THE PAST, MAKERS OF THE FUTURE
