## **Art & Design Curriculum Intent**

**Department Philosophy:** Art, craft and design can make significant contributions to the spiritual, moral, social and cultural dimensions of learning. *The study of art enables pupils to understand, appreciate and contribute to a dimension of life that taps into and expresses human innovation, imagination and thought. Art education can build pupils' ability to appreciate and interpret what they observe, communicate what they think and feel, or make what they imagine and invent.* (Ofsted 'Research review series: art and design' 2023)

Through studying the work of contemporary and historical artists, craftsman and designers, from both western and worldwide cultures, our students will understand how this subject empowers humankind to create visual works which celebrate, communicate, make meaning and engage in the highest forms of expression. During their art and design journey at WHSG, our students will explore both expressive and technical dimensions in order to communicate their ideas creatively. *This notion is expressed in the NSEAD (National Society for Art & Design Education) secondary schools guidance for KS3&4.* 

By t	he end of Key Stage 3 our students will know:	By the e	nd of Key Stage 4 our students will know:	By the e	end of Key Stage 5 our students will know:
1.	The meaning of the 'language of art' known as the formal elements, which includes: shape, line, tone, light, form, colour, composition and	10.	The meaning of each assessment objective and what is required for meeting each one.	17.	How to develop independent work which meets the criteria for all four assessment objectives.
	content.	11.	That with encouragement and over time, they will be able to progressively develop their own strengths and interests in the	18.	How to participate actively in their course of study, recognising and developing their own strengths and identifying and
2.	How to apply a variety of practical skills in their work including drawing, painting, printmaking, 3D processes such clay, wire and		subject and increasingly follow their own lines of enquiry.		sustaining their own lines of enquiry.
2	paper construction, digital processes using Adobe Photoshop.	12.	How to develop their ideas through investigations informed by selecting and critically analysing relevant sources including work	19.	A deeper understanding of how ideas, feelings and meanings can be conveyed and interpreted in images and artefacts. In
3.	A variety of processes and techniques within each discipline that can be exploited for the purpose of meaning and communicating ideas.		of artists, craftspeople or designers from contemporary and/or historical contexts and cultures.		addition an understanding of the conventions of figurative/representational and abstract/non-representational imagery or genres.
4.	How to look at and analyse works of art, craft and design, both historical and contemporary, to inform their own ideas.	13.	How to record their ideas, observations, insights and independent judgements, visually and through written annotation, using appropriate specialist vocabulary, as work	20.	About historical and contemporary developments and different styles and genres relevant to fine art. Students will also
