

HEIRS OF THE PAST, MAKERS OF THE FUTURE

The Wallington Week

1st June 2026

Congratulations to all students who participated in the Wallington Walk. It was wonderful to see such enthusiasm, creativity and school spirit throughout the event, with students embracing the occasion through colourful costumes, face paints, and imaginative outfits. Thank you to the parents who displayed good luck placards on the route – a welcome sight! We look forward to announcing the total amount raised for this worthwhile cause.

Congratulations also to all students in Years 7 and 8, who have now completed their end-of-year assessments. Their hard work, resilience and commitment throughout the assessment period have been commendable. We would also like to wish our Year 10 students every success as they begin their assessments in the coming weeks.

We are especially proud to celebrate the achievement of Frema in Year 12, who has been selected to represent Ghana, in Judo, at the Commonwealth Games this summer. This is an exceptional accomplishment and a testament to her dedication and talent. We wish her every success in the competition.

We would also like to congratulate the students who have qualified for the UKMT Maths Challenge Final. Reaching this stage is a significant achievement, and we are delighted that this is the first time our school has reached the final. We wish all participating students the very best of luck.

Before half term, the school welcomed a visit from the JCQ (Joint Council for Qualifications), who recognised the school as a Centre of Excellence for our work in the administration and delivery of public examinations. This is a significant accolade and reflects the dedication and professionalism of staff involved in supporting examinations across the school.

Finally, congratulations to this term's Jack Petchey Award winners: Kavya in Year 8 for Courage, Zahra K in Year 7 for Curiosity, and Maissa in Year 8 for Compassion. These students have exemplified our school values and should be extremely proud of their achievements.

Upcoming Events

24th June- Year 12 Induction Day

Junior Mathematical Challenge

This term students from years 7 and 8 took part in the Junior Mathematical Challenge. This is a multiple-choice test that is sat by students across the UK. It encourages mathematical reasoning, precision of thought, and fluency in using basic mathematical techniques to solve interesting problems. The problems are challenging and designed to make even the most able students think!

The competition was particularly tough this year and the thresholds for certificates were 75+ for Gold, 59+ for Silver and 47+ for Bronze. A score of 80+ meant a student would qualify to sit the Junior Kangaroo and a score of 112+ meant a student would qualify to sit the Junior Mathematical Olympiad.

It is a great achievement to have been awarded a certificate and we would like to congratulate and celebrate the success of the following students.

Sustainability

FACTS

Nature's contributions to people

- There are many benefits we receive from the natural world – which we often take for granted for example:
- Forests regulate the climate, generate the rainfall that agriculture depends on, replenish our water supplies, and provide us with wood, food and medicinal plants.
- Wetlands reduce the risk of both droughts and floods by soaking up and slowly releasing water.
- Mangroves protect coastal settlements against storms and erosion and store vast amounts of carbon.
- Marine ecosystems provide us with nearly 100 million tonnes of seafood every year.
- Three-quarters of our crops and more than a third of global crop production depend on bees and other pollinators.

TIPS/SOLUTIONS

- About 71% of all agricultural land is currently used for grazing livestock, with a further 11% used to grow crops for animal feed. In general, eating more plant-based foods and fewer animal products is better for our health and better for the planet.
- Our food system is the number one driver of nature's decline. Food production uses 40% of all land that's suitable for people to live on – and it's the leading cause of habitat loss.
- Nature-positive production
- It's possible to provide enough food for everyone while also allowing nature to flourish. Nature-positive farming practices can improve crop yields and livestock productivity while helping to restore ecosystems, biodiversity and soil health. By rebuilding and sustainably managing fish stocks we could harvest more seafood from the wild, while there are also opportunities to sustainably increase aquaculture production.

Attendance

Requests for absence, including illness or appointments should be sent to:

attendance@wallingtongirls.org.uk

Please provide at least 2 full school days notice of a planned absence for the school to complete the required processes before the event.

Absences for longer than one day need to be confirmed at least 2 weeks prior to the event. Families should note that requests for holidays during term time will not be approved and penalty fines can be issued.

To notify WHSG of a leave of absence, please complete this [form](#) and return to the email above.

Contact Information and emails

If you need to update your home address or contact telephone number, emergency contacts or any other information, please send the updates to:

attendance@wallingtongirls.org.uk

When replying to any SchoolComms emails, please use the individual contact email provided and for general enquiries use info@wallingtongirls.org.uk

Parking

Please note that parents are unable to park or drive into the school grounds between the hours of 7.30am-4.30pm for safeguarding reasons. Families can contact our reception to ask for permission, where the needs arise for a student with mobility issues.

reception@wallingtongirls.org.uk

Please also ensure that when dropping/collecting your child at school each day, you are respectful of our local residents by not blocking drives and roads or impacting others safety by pulling in/ parking irresponsibly.

Punctuality

Good punctuality to both lessons and to school is expected of all students. We know that employers place great importance on punctuality and attendance, therefore it is important for our students to understand the value of being on time.

If a student is late 3 times within a half-term (roughly 6 weeks) they will receive a 60 mins detention on a Wednesday or a Friday. If the student is late again within the half-term they will receive an automatic 60 mins detention, a late report and there will be a meeting with parents. This will re-set at the start of each half-term.

We ask that parents support these actions as important processes for the school and understand that detentions cannot be moved for any after school clubs or enrichment events. Should a detention clash with a medical appointment, evidence will be requested for the school to show flexibility.
